MOK CORPORATION

YOUR TRUSTED PARTNER IN
AUTOMOTIVE
SPARE PARTS

SINCE 1980

MOK CORPORATION

Founded in 1980, MOK Corporation is a leading supplier of high-quality automotive spare parts for Japanese and Korean vehicles. With over four decades of expertise, we specialize in aftermarket and OEM solutions for passenger cars, commercial vehicles, and heavy machinery—covering key vehicle systems such as engine, brake, suspension, drivetrain, electrical, and more.

We proudly manage a growing portfolio of registered brands, officially represent a selection of global brands, and maintain strategic access to additional renowned aftermarket brands through our extended operations—positioning MOK Corporation as a comprehensive sourcing hub for importers, workshops, and fleet operators across the Middle East, Africa, Asia, and beyond.

Our commitment to consistency, availability, and customer satisfaction has made MOK Corporation a trusted partner for thousands of clients around the world.

Why Choose MOK?

Global Legacy of Trust

With over 40 years of experience, MOK Corporation is recognized worldwide for its unwavering commitment to quality, innovation, and long-term partnerships.

Competitive Value

We offer both genuine and aftermarket parts at highly competitive prices—without compromising on performance or reliability.

Extensive Brand Portfolio

From our own registered brands to authorized and additional global names, we cover all major vehicle systems for passenger cars, commercial vehicles, and heavy equipment.

Reliable & On-Time Delivery

Our advanced logistics network ensures fast, accurate, and consistent delivery—minimizing downtime for workshops, fleets, and importers

Exclusively Developed and Owned by MOK Corporation

At MOK Corporation, we proudly own and manage a portfolio of registered brands tailored to meet the diverse demands of the global aftermarket.

Each brand under our umbrella serves a specific automotive system or segment—providing focused solutions without compromising on quality or performance.

Our registered brands cover a wide range of parts for Japanese and Korean vehicles, from engine and electrical systems to clutch, suspension, steering, and rubber components.

These brands represent our commitment to innovation, consistency, and long-term partnership with workshops, importers, and wholesalers around the world.

Specialization in clutch discs and clutch covers

Designed for smooth torque transfer and low vibration

OEM-grade friction materials for lasting durability

Ideal for standard and heavy-duty clutch systems

Preferred by clutch rebuilders and transmission service centers

Rubber Parts for Stability & Performance

Precision-Molded Rubber Solutions for Japanese & Korean Vehicles

ASAHI is MOK Corporation's specialized brand for premium rubber automotive components. It provides essential parts used for absorbing vibration, enhancing ride comfort, and protecting structural integrity. Engineered to OEM-grade specs, ASAHI products maintain their performance even under stress, heat, and long-term use.

Whether it's mounting heavy engines or isolating vibration across the drivetrain and suspension, ASAHI rubber parts deliver lasting protection and comfort.

Perfect fitment for Japanese & Korean models

Water & Oil Pump Solutions

Precision Flow. Proven Durability.

NJW is MOK Corporation's specialized brand for water pumps and oil pumps, engineered to support critical engine cooling and lubrication systems in Japanese and Korean vehicles. Every NJW component is developed for precision flow control, thermal resistance, and long-term mechanical reliability.

Designed to perform under extreme conditions, NJW pumps ensure optimal engine temperature regulation and lubrication — extending engine life and preventing breakdowns in passenger and commercial vehicles alike.

Manufactured using high-grade materials, advanced seal technology, and precision-cast housings, NJW is the trusted choice for workshops, fleets, and distributors looking for performance, durability, and OEM-level fitment.
